

# Luxurious Lamu

## Fish and Safari Kenya

**Manda Dream** - both these houses are beautifully designed in a refined exotic style, built with precious African wood and traditional makuti roofs. **Equator House** sleeps up to eight people in four double rooms while **Blue Empire House** sleeps up to six in three double rooms, all rooms have en suite bathrooms. Both houses have wide living and dining rooms that open onto huge verandas from which you can enjoy unforgettable sunsets.

Each house is provided with qualified help including a chef, waiters, gardeners, sailors and guards. Each house has a fully equipped kitchen, if you take the self catering option the staff will be happy to do your shopping.

Located on the fantastic Manda beach, a few meters from the sea. Surrounded by luxurious tropical vegetation, the houses enjoy a spectacular view of the Indian Ocean and the island of Lamu and Shela village.

**Lamu's archipelago** is a unique place with a mysterious and fascinating history, where life flows with a relaxed and slow pace. Made up of six major islands and many smaller ones. This archipelago is the jewel of the Kenyan coast and offers an unforgettable stay for those seeking to get away from it all.

**Local excursions and attractions** - Manda Dream has its own purpose built dhow, available for charters to investigate the many secluded bays and reefs that Lamu has to offer. Francesca (bottom right) is a purpose built dhow designed in the Mozambique style. She has a broad beam and a shallow draught, making her the perfect vessel to explore the Lamu archipelago.

Each house includes it's own smaller dhow (left) that will be at your complete disposal for the duration of your stay. There is a sailor with the dhow who can run you to Lamu and Shela or take you off to idyllic corners.

The **big game fishing** off the Lamu coast is world class. Off Lamu you can fish for black, blue, and striped marlin, sailfish, swordfish, large yellowfin tuna, wahoo and many more. You can book fishing when you arrive but with only a couple of big game fishing boats available it is recommended that you book in advance to avoid disappointment.

For those of you who prefer to get in the water there is some stunning **scuba diving** available of the Lamu archipelago and numerous opportunities for a variety of **water sports**.
