

SAFARIS FROM MALINDI

www.fishandsafarikenya.com

Galdessa Camp

Galdessa - spread along the banks of the Galana River under Doum Palms, overlooking the Yatta Plateau in Tsavo East. Accommodation is in 15 comfortable and spacious bandas (thatched, semi-tented bungalows on wooden platforms) each of which has en-suite bathrooms, verandas and are situated a good distance apart to provide privacy. The bathrooms are large and have traditional bucket showers, flush toilets and basins with running water. The camp has been built with great care not to adversely impact the environment and recycles its waste, uses solar power for electricity and has installed a water treatment plant. Activities include game drives, walking along the river, sundowners with night game drive back to camp & bush breakfasts.

Satao Camp

Satao Camp - set in the vast scrubland of Tsavo East, nestled amongst trees and surrounding a central water-hole. The semi-circular layout of the camp provides an excellent viewing point from the comfort of your veranda where one can watch many different species coming down to water. Accommodation is in 20 tents all with en-suite bathrooms with flush toilet and safari shower. Each tent has a private patio and is topped with a makuti roof. Activities include game drives in Tsavo East and bush sundowners.

There are numerous safari options available from Malindi for those that wish to venture in to the bush and witness the amazing number of different species of both animals and birds that can be found in Kenya, not forgetting the incredible variety of landscapes and scenery. Only one hundred km west of Malindi lies the famous Tsavo East National Park, just two hours by road or a 30 minute flight in a light aircraft. All safaris are tailor made to suite the individual requirements of each client.

Tsavo National Park - covers more than 20,800 km², it is Kenya's largest national park and is split into Tsavo East and Tsavo West by the busy Mombasa/Nairobi road and railroad.

This is a hot dry region with less than 20 inches of rainfall per year, but the stunning landscapes and the sense of isolation felt in this vastness puts you in touch with real Africa. The joint mass of Tsavo East and West forms one of the largest national parks in the world and covers a massive 4% of Kenya's total land area.

Tsavo is famous for its huge herds of dust red elephants, the cats you can see include lion, cheetah, leopard, serval & genet. Plains game include huge herds of buffalo, eland, oryx, giraffe, zebra, gazelle, gerenuk and waterbuck. Along and in the Galana river you can see large groups of hippopotamus and huge Nile crocodiles.

The bird watching is world renowned with a huge variety of birds of prey, amazing coloured bee eaters, weaver birds and starlings, amongst just a few of the hundreds of birds listed in the Tsavo area.
